PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building responsive, accessible, and performance-focused web applications using React, Next.js, and Tailwind CSS. Currently transitioning into Full Stack Development with growing experience in backend technologies, API integration, and scalable web architecture. Skilled in component-based development, modern frontend workflows, and collaborative Agile environments, with a strong focus on delivering seamless user experiences across the full development lifecycle.

TECHNICAL SKILLS

Frontend Development

- HTML5, CSS3, JavaScript (ES6+)
- React.js, Next.js
- Tailwind CSS
- TypeScript (working knowledge)
- Responsive & Mobile-First Design
- Accessibility (ARIA, Semantic HTML)

Backend & Full Stack

- REST API Integration
- Basic Backend Development Concepts
- Authentication & State Management
- Working Knowledge of Node.js & Backend Workflows

UI / UX & Performance

- Flexbox, CSS Grid
- SEO & Web Performance Optimization
- Component-Based Architecture
- Clean UI Implementation

Tools & Workflow

- Git & GitHub
 - VS Code, Chrome DevTools
 - NPM / Yarn
 - Vercel, Netlify
 - Agile Collaboration
-

PROFESSIONAL EXPERIENCE

Frontend Web Developer (Intern)

[InstinctHub](#) | Lagos State

September 2024 – Present

- Built and maintained reusable UI components using React.js and Next.js for production web applications
- Integrated REST APIs and managed frontend data rendering and application state
- Collaborated with developers and designers to improve usability and consistency across web platforms
- Optimized frontend performance, reducing page load time by approximately 25%
- Gained exposure to backend workflows and full stack application structure during feature implementation

Junior Frontend Web Developer

Talatech | Remote

October 2025 – Present

- Collaborated on multiple web applications, handling frontend implementation and UI enhancements
- Implemented responsive interfaces and design updates based on client requirements
- Worked closely with development teams to integrate frontend applications with backend services

- Participated in debugging, testing, and deployment workflows
-

KEY PROJECTS

Online Learning Academy – Landing Page

Next.js, Tailwind CSS

 [Live Project](#)

- Built a mobile-first landing page with responsive layouts and reusable React components
- Developed scalable UI sections including hero banners, course highlights, and CTA components
- Applied SEO best practices and semantic HTML for improved search visibility and accessibility
- Structured the project for maintainability and future backend integration

InstinctHub Website – Frontend Pages & UI Enhancements

React.js, Next.js, Tailwind CSS

 [InstinctHub Website](#)

- Developed and implemented multiple frontend pages for a production education platform
- Built responsive layouts and interactive UI components using React and Next.js
- Collaborated with teams to improve user experience and support scalable product growth
- Worked with API-driven content and dynamic frontend rendering

Veloce Motors

React.js, Next.js, Tailwind CSS

 [InstinctHub Website](#)

- Developed and implemented multiple frontend pages
 - Built responsive layouts and interactive UI components using React and Next.js
 - Worked with API-driven content and dynamic frontend rendering
-
